Go INto Hospital Important

Please let us know if you are going into hospital. It is ESSENTIAL that you ask for a Catholic Chaplain when in hospital. Chaplains are no longer given names that justifies every type of waste, environmental or otherwise. A dimension of technology as power has led to a ‘use and throw away’ logic that justifies every type of waste, environmental or human (para 123). For example during the past 40 years about 20% of the Amazon has been destroyed—more than in all the previous 450 years. The destruction of the Amazon starts with technology—a road, for the sake of human economic development at the expense of nature and the poor. The Pope wants a brave revolution in our attitude to technological development. This does not mean a return to the Stone Age but involves “sustainable progress” which is “more human, more social, more integral” (paras 112,114). Pope Francis is asking us to look at the roots of our behavior: is it one of power or is it one of care? To read the Pope’s encyclical visit the Parish Website and follow the link to the text. Next week a summary of chapter 4: Integral Ecology.

St Therese was born at Alençon, France in 1873. She personally preferred to be called the Holy Little Flower. She entered Carmelite convent at Lisieux when she was 15 years. Though she was small in size, she was a big soul. She was outstanding for her love, humility, simplicity and confidence in God. She offered her life for the salvation of souls and for the Church. She died in 1897. She is the patron saint of France and the missions.
